CONCENTRATION

Marketing professionals use data and insights to forecast, promote products or services, and react to market trends.

Marketing is the driving function that spearheads the trajectory of any organization. Marketing analysts utilize their understanding of consumer needs to form the optimal product or service design and then decide which placement and promotion strategy at which price point is the most fit for that product or service.

UCR sets itself as a prime example of one of the fundamental concepts of marketing: remaining agile in today's dynamic business landscape. Our students are guided to success by courses that are up-to-date with the latest practices in the field of marketing, utilizing case studies, real-world examples, and hands-on learning.
