

Lecturer Information Packet

2018/2019 AY

1. How do I get my UCR e-mail address and UCR NetID?

The UCR NetID is automatically generated upon electronic notification of each new hire transaction completed within UCPATH. The new process uses algorithm to construct a unique UCR NetID based upon a combination of the new employee's first name/initial, last name/initial, and a sequence number, if necessary to prevent duplicates.

2. How do I register my permanent UCR NetID password?

After the UCR NetID and initial password are created, an email notification is delivered to the new employee's personal email account alerting them to their new UCR account credentials with instructions on how to change their initial password. The supervisor (area coordinator) of the new employee also receives an email notification to inform them of the newly generated UCR NetID. If this does not occur or you have problems accessing the information, please contact fomucpath@ucr.edu.

3. Logging into the office computer (Olmsted or Anderson Hall) for the first time:

Use your Net ID as your User Name and a temporary password of **abcdef_1** to log on to your computer for the **first time**. It will prompt you immediately to change your password to a permanent one. It's generally a good idea to use the same password for your computer account that you use for your NetID. If you have problems, please contact School of Business IT staff.

Your School's computer account may be used to log on to any UCR owned computer in School's offices. Files placed in your "home folder" (H: drive or "Documents" folder) are stored on a network file server and are available to you on any office computer. Any problems, please contact the IT department.

Computers in lecturer offices are typically used by multiple people. Please log off the computer each day when you are done using it. Software may not be installed on office computers without approval of School's IT.

5. How can I access my UCR e-mail account through a web browser?

Use R'Mail to access your email account:

1. Go to <https://rmail.ucr.edu>
