

BUSINESS ADMINISTRATION OPERATIONS & SUPPLY CHAIN MANAGEMENT

CONCENTRATION

OSCM analysts report on purchasing decisions and operational practices to draw insights from data to increase business efficiency.

The dynamic field of operations and supply chain management (OSCM) plays a critical role in ensuring seamless operations, cost-effectiveness, and responsiveness to meet the demands of a rapidly evolving global market. Our OSCM graduates excel in diverse career paths from operations and product management to management consulting across banking, healthcare, and government industries.

Equipped with analytics skills and business acumen, UCR OSCM students learn to enhance efficiency, quality, and competitiveness by coordinating cross-functionally to manage the quality, pricing, logistics, and sales processes of a product or service.
